

OPEYEMI OLADIPUPO

Frontend and WordPress Developer

+2348036627218 | oladipupoope@gmail.com | opeyemi-oladipupo.github.io | [LinkedIn](#)

PROFESSIONAL SUMMARY

Frontend and WordPress developer with 3+ years of freelance experience building and deploying responsive websites for small businesses and individual clients. Skilled in HTML5, CSS3, JavaScript, React and WordPress (theme customization, Elementor page building), with end-to-end experience taking sites from design through live deployment - including domain configuration, web hosting, cPanel administration, SSL setup, and business email/DNS configuration. Comfortable managing client requirements independently, applying on-page SEO basics, and using Git/GitHub for version control. Currently strengthening back-end fundamentals (Python, Django, SQL, REST APIs) through the Meta Back-End Developer Professional Certificate. Seeking an entry-level Frontend, WordPress, or Web Developer role.

TECHNICAL SKILLS

Frontend Development: HTML5, CSS3, JavaScript, responsive/mobile-first design, cross-browser troubleshooting

WordPress & CMS: WordPress theme customization, Elementor page builder, plugin configuration, content structuring

Website Deployment & Infrastructure: Domain configuration, web hosting setup, cPanel administration, SSL/HTTPS setup, business email & DNS configuration

SEO & Optimization: Basic on-page SEO (meta tags, headings, alt text, site structure)

Version Control: Git, GitHub

Currently Learning: Python, Django, SQL, REST APIs (Meta Back-End Developer Professional Certificate, in progress)

Productivity Tools: Microsoft Word, Excel, PowerPoint

PORTFOLIO

WORK EXPERIENCE

Freelance Web Developer (Project-Based) | 2023 - Present

Remote | Portfolio: opeyemi-oladipupo.github.io

- Design and build responsive websites for small businesses and individual clients using WordPress, HTML, CSS, and JavaScript.
- Customize WordPress themes and build page layouts with Elementor to match client branding and content requirements.
- Handle full website deployment: domain configuration, web hosting setup, cPanel administration, SSL implementation, and business email/DNS configuration.
- Apply basic on-page SEO practices (headings, meta tags, alt text) to support site visibility.
- Manage client communication end-to-end, from initial requirements gathering through delivery and after-launch support.
- Source and secure client projects through referrals and freelance platforms.

Computer Systems Technician (Hardware & Software) | Aug 2015 - Jul 2017 (freelance basis to date)

Genius Computer Technologies, Quarry Road, Abeokuta

- Diagnosed and repaired hardware and software faults on laptops and desktop systems, including component-level replacements (RAM, hard drives, peripherals).
- Installed and configured operating systems and application software for client systems, building a strong technical troubleshooting foundation relevant to web/IT environments.

EDUCATION

Postgraduate Diploma (PGD), Information Technology | In Progress

National Open University of Nigeria (NOUN)

Higher National Diploma (HND), Microbiology/Biology | 2022 - 2024

Moshood Abiola Polytechnic, Abeokuta
